WORK EXPERIENCE

Manufacturing Associate (Field Failure Analysis)

Dexcom, Inc.

07/2024 – 11/2025

- Trained to process returned devices to test and investigate for failures.
- Responsible for voltage testing, picture taking, and sorting units by item type and complaint codes.
- Works with microscopes, cameras, digital multimeters and mostly computer data entry.

Quality Control Inspector

Resideo, Inc.

03/2021 – 06/2023

- Trained to inspect and test various gas valves and metal screws to identify defects.
- Responsible for ensuring that products and processes meet the required quality standards and specifications by doing audits, leak testing, documentation and approving pallets for delivery.
- Works with blueprints and inspection equipment like CMM, CT scan, microscopes and various computer software and hand tools (Micrometers, calipers, gages and fixtures).
- Introduced to First Articles and Calibration.

Process Technician

Kyocera International, Inc.

09/2019 – 03/2020

- Trained to operate, maintain, and troubleshoot various engineering equipment used in manufacturing semiconductor components.
- Responsible for the flow of production of microchips/printed circuit boards that include programming, manual/automatic printing, soldering, cleaning, baking, and visual inspection.
- Works with microscopes, diagrams, and computers under a controlled environment.

Role Player (On-Call)

Advancia Technologies LLC.

07/2017 – 07/2021

- Portrays real life experiences in a military training simulation.

General Assembler

Becton, Dickinson, and Company

08/2018 – 07/2019

- Trained to work in an FDA regulated environment while assembling medical devices like Alaris Patient Care Unit and Large Volume Pump.

Designer and Developer

Freelance

07/2011 – 07/2021

- Works on projects regarding web and mobile applications, software development and multimedia design through school activities and casual requests from friends and acquaintances.

Programmer/IT Support Technician

Management Information Systems

05/2014 – 07/2014

- Trained in designing and generating reports from Visual Basic using SAP Crystal Reports.
- Trained to manage data from Visual Basic using MySQL Connector.
- Implemented a management reporting system (JIT System) necessary for government inspection of business establishments.
- Trained to manage the city website and perform multiple hardware and software troubleshooting and assistance.

EDUCATION

Bachelor of Science in Computer Science

AMA Computer College

SKILLS

- Knowledgeable in computers: programming, networking, hardware, software, and troubleshooting.
- Efficient in word processing and handling administrative and clerical duties.
- Experienced in working with complicated machinery and engineering tools in a controlled manufacturing environment.
- Good verbal and excellent written communication skills.
